# NATURAL WOODLAND

## Healthy and balanced diets

**Natural Woodland** is a complete dry food for all age and dog breeds that stands out for the high quality of its ingredients. In addition to fresh meat, our diets also contain a wide variety of fruits and vegetables, a source of vitamins and minerals that are very necessary for the growth and general health of the dog.

**Cranberries:** They help to prevent and control urinary tract infections by reducing the dogs' urine pH.

**Rosemary and Chicory:** Both plants facilitate digestion and nutrient absorption. Rich in iron, calcium and vitamin B6, they contain powerful antioxidants.

**Apples and Pears:** Rich in vitamins A, C, K and copper, which act as antioxidants to protect the dog's cells from free radical damage. They are an excellent source of dietary fibre, beneficial for the heart.

**Pumpkin:** Low in calories and rich in vitamin A, C and E, beta-carotene, potassium, zinc, calcium and magnesium. It also contains fibre and it is a diuretic and antioxidant fruit that acts as a natural anti-inflammatory because of its high fatty acid content.

**Ginger:** This medicinal plant is a natural anti-inflammatory that relieves respiratory problems, osteoarthritis, diabetes and different digestive problems.

**Spinach:** Provides fibre, iron, vitamins, antioxidants, calcium and beta-carotene. Spinach is perfect for puppies, as it promotes bone health and growth.

**Carrots:** Rich in beta-carotene, with vitamins A, C, D, E, K, B1 and B6. With high potassium and fibre levels that fight against anemia and respiratory problems. In addition, they are antiseptic and very good for skin and eyesight.

**Broccoli:** With vitamins A, C and K, as well as fibre, manganese, calcium and folic acid. It is an excellent food to reduce cholesterol.

**Natural Woodland is a food made without gluten, and without potatoes that stands out from its competitors due to the inclusion of the following ingredients:**

## **FRESH MEAT AND FISH**

We elaborate our diets with fresh human grade meat. Our fresh chicken, wild boar and white fish meats provide great nutritional value, in addition to more than remarkable palatability to our food.

## **WHOLEGRAIN RICE AND LENTILS**

Improve digestion and intestinal transit, and incorporate easily digestible carbohydrates that provide minerals and Vitamin B.

## **OMEGA 3 AND 6 FATTY ACIDS**

With a proper ratio of omega-6 and omega-3 fatty acids that helps maintain a lipid balance that results in healthy skin and shiny coat.

# COUNTRY DIET

**Country Diet** is an excellent dog food formulated for all ages and breeds made with fresh human-grade chicken meat that provides high palatability, in addition to great digestibility for dogs with sensitive stomachs.

# Changing to NATURAL WOODLAND

When we change our pet's diet, the effects occur from the inside. While digestive changes occur relatively quick, skin and hair can take much longer to respond.

## DETOXIFICATION PERIOD

These are the physical changes that the pet can experience when it switches from feeding with an inadequate product to a high quality diet.

■ Shedding increase.

■ Scaly skin.

■ Dandruff increase.

■ Constipation or diarrhea.

**Duration of symptoms:** From 1 to 2 weeks.

## ADJUSTING TO NATURAL WOODLAND

Dog's digestive system needs time to fully adapt to a new food. For this reason, it is always recommended to introduce progressively the new food for several days and make this change smooth.

**During 1 or 2 days**

30% NATURAL Woodland  
70% Old brand

**During 3 or 4 days**

50% NATURAL Woodland  
50% Old brand

**During 5 or 6 days**

30% Old brand  
70% NATURAL Woodland

**Always**

100% NATURAL Woodland

Switching between different **Natural Woodland** diets can be done directly, since both the quality of the ingredients and nutritional analysis are within the same range of values.
